

Nuclear Energy Institute

EFCOG Semi-Annual Meeting

Moving Forward – The Industry Agenda

Marvin S. Fertel

Senior Vice President and Chief Nuclear Officer

August 15, 2007

Existing Plants

- **Achieving a more effective, disciplined and credible regulatory process**
- **Effectively addressing operational and regulatory risks**
- **Systematically addressing change management at the NRC and in the industry**
- **Ensuring a competitive and reliable fuel supply**

New Plants

- **Effective implementation of the EPACT provisions**
- **Clear and predictable regulatory process**
- **Maintaining standardization**
- **Assuring adequate infrastructure**

Used Fuel Management

- **Reaffirmation of waste confidence**
- **Standard contract for new plants**
- **Yucca Mountain license application submittal**
- **Integrated Used Fuel Management Program Implementation**

Public and Policymaker Support

- **CASEnergy Coalition**
- **Expanded NEI communications campaign**
- **Enhanced outreach to policymakers at the state level**
- **Strengthening of bipartisan support at the federal level**
