

EFCOG Energy Efficiency Working Group

Status Report

August 2008

Lynnwood Dukes, Chair

Accomplishments

- Annual Working Group Meeting held in conjunction with FEMP GovEnergy Conference in Phoenix, AZ
 - 46 members attended with 11 FEMP staff present
 - Hosted three teleconferences on ESPCs, Metering, and Water Guidance (sharing lessons learned, providing feedback on guidance)
 - Posted numerous memos, guidance documents, energy plans, water plans, etc. to EFCOG EEWG website for information sharing
-

Accomplishments

- ❑ Coordinated responses to revised order 430.2B.
 - ❑ Facilitated information between FEMP and working group members
 - Surveys, data gathering, draft guidance review, execution plans
 - ❑ Interfaced with Infrastructure and Environmental Working Groups
 - ❑ Transitioned EEWG Directorship to Juan Alvarez of INL
 - ❑ Continuing to promote and support the TEAM Initiative led by Bob Westby of NREL
-

Future Plans

- Topics at the annual meeting requiring further discussion and action:
 - Energy Savings Performance Contracts Lessons Learned document
 - Water Savings initiatives and path forward with information sharing
 - Renewable Energy – path forward teleconference
 - Excluded Buildings process - teleconference
 - Energy surveys – what constitutes comprehensive teleconference
 - Executable Plans – guidance and information sharing
-

Issues to Work

- Meet with Richard Kidd, new Director of FEMP/EERE to achieve alignment and focus on key issues.
 - Continue to solicit for volunteers to lead whitepaper development
 - Funding mechanism to address renewable energy and water goals
 - Integrated approach to renewable energy
 - ESPC internal support costs
-
