- Number of white papers submitted to DOE? One

Path Forward

- The AMWG has provided a forum for the sharing of information and the comparison of operating and business practices. True membership benefit has come from this activity, such as discussion on handling the current budget reductions and various impacts on contractor volume.
- It is believed that the AMWG has value for the member companies and DOE, and should be continued as discussed in the presentation of options to the EFCOG Board of Directors. The transformation of the AMWG to a BMWG will allow for even more value covering a broader range of topics important to EFCOG and DOE.
