IDAHO FALLS**

MEETING SUMMARY

ATTENDEES

Paula Kirk Robert Richardella Lance Mezga Darrick Stafford Mike Auble

Anne White Chuck Negin Paul Yela Kent Dorr Dan Coyne

John Fulton

Welcome comments by B. Richardella and Paula Kirk

Safety Topic review / presentation by Paul Yela

Items presented were topics on safety awareness and review of your surroundings, crane supports, trench safety, electrical safeguards.

CWI President – John Fulton presented to the group the status of the INL D&D project and safety performance for D&D work completed to date, Waste remediation, ARRA work.

Review Old Business

Prior to site presentations, group discussed the future of the WG and what short and long range goals need to be established for the WG to stay viable, (visited later in the day)

Site Presentations were delivered by:

Lance Mezga – ORNL, D&D reducing risks and contractor challenges

Dan Coyne – INL Site, D&D Training program and resource management

Paul Yela – Y 12, decommissioning and clean out activities ready for D&D

Mike Auble – LLNL, D&D Projects performance and management challenges

Darrick Stafford – D&D activities and site work for D&D of SM-43 facility

Chuck Negin – EM 23 Design Engineering Guide, tailored reporting systems

Paula Kirk – EM 23 2010 Initiatives, role for the D&D WG to contribute to?

Anne White – D&D Waste interfacing issues.

Additional discussions were held for the continued viability for this EFCOG Working Group, and suggestions to get the group motivated and ways for an increase in participating members.

ARRA funded work at the sites and the status on reporting was covered with an emphasis on having the SOW prepared and ready to go once Stimulus funding is received.

The restructuring of the EM Office for Projects
