

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

What is a sustainable organization?

- Energy
- Water
- Air
- Materials & wastes
- Land use & ecosystem
- Civic engagement
- Organizational mission

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

1. What has your site found to be important factors in implementing the EO and DOE Order 450.1A?
 - dynamic leadership at the site?
 - ability to develop collaboration?
 - business forces (competitive advantage)?
 - corporate policy (usually dictated by the above factors)?

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

2. How are sites moving to add sustainability and the sustainable practices identified in DOE Order 450.1A into their EMS programs and processes?
3. How are sites communicating about sustainability with employees, contractors, and community stakeholders?
 - successes, challenges

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

4. How does your organization measure sustainability progress and success?
5. Targets for expansion. What other areas of the site need to be targeted for sustainability?

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

6. What is the role of the P2 organization and how can they contribute to success?
7. Who else should be involved in the “sustainability” efforts?

Moving toward Sustainability

Facilitated Discussion

Discussion Questions:

8. How do you get “buy-in” from management, employees, and stakeholders?
9. What benefits has your organization realized, or does your organization expect to realize, from its sustainability efforts?
