

EFCOG Lightning Safety Sub Group
Meeting Minutes
April 12, 2010
11:30 EDT

Attendees

- Dave McAfee, Y-12
- Jeff Williams, LANL
- Bob Daley, SNL
- Gary Dreifuerst, LLNL
- Jerry Grant, RL
- Heath Garrison,
- Jackie McAlhaney, SRS
- Jerry Meyers, DOE-HQ
- Barry Osborne, Pantex
- Sal Sferrazza, NREL

Meetings

We will continue to have the conference calls on the Monday before the 2nd Wednesday of each month at 11:30 ET

Next call will be on May 10, using the conference call set up by Bobby Gray

Deliverable

- Dave McAfee will put together a member listing with contact information.
- Dave and Jeff Williams will try to put together a DRAFT outline of what we are trying to develop on the line of maintenance, grounding assurance, and “when and how much” LPS
- Dave McAfee will work on setting up conference calls after June

Topics and Issues

- Develop guide on when and how much LPS to install, Graded Approach
- What is Temporary vs permanent
- When is a system operable, impaired, or not operable
- What is a repair vs a modification
- Frequency of Inspection, Testing, and Maintenance (IT&M)
- Lightning Safety for the Outdoor Worker at DOE sites
