

2009 EFCOG

Electrical Safety Workshop

Sponsored by the Hanford Site

Contractors and the

Electrical Safety Subgroup

Who We Are

- * Group of electrical safety SMEs put together in 2005 to address DOE electrical safety concerns
- * Contractors and federal employees from most sites
- * Continuation of efforts started ~20 years ago

What We Do

- * Work together to solve complex wide issues
- * Provide sounding board for SME consistency amongst sites
- * Develop electrical safety training modules
- * Hold monthly teleconferences
- * Host two annual meetings

What We're Currently Working On

- * Planning the 2010 workshop
- * Working with IEEE for the spring meeting
- * 70E proposals for the 2012 edition
- * ISA R&D electrical safety standards
- * ESI implementation through the ORPS group

Immediate Future

- * This year is very important
 - * 70E proposals
 - * ISA standards
 - * ESI implementation
 - * We lose two well respected long-time SMEs
 - * Bryan Drennan
 - * Bobby Gray
- * Next year we will hold elections of officers
 - * Looking for the next Bobby and Bryan
