

Call for Papers

Submission Deadline - May 17, 2010

2010 DOE Integrated Safety Management Champions Workshop
September 15 - 16, 2010
Augusta, Georgia

<http://www.srs.gov/general/ism2010/>

Since it was first introduced in 1996, the Integrated Safety Management system is the tool the U.S. Department of Energy and the National Nuclear Security Administration uses to build a safe, secure and environmentally sound workplace. The building blocks of Integrated Safety Management- Define the Scope of Work, Analyze the Hazards, Develop and Implement Hazard Controls, Perform Work within Controls, and Provide Feedback for Continuous Improvement - were used to establish a solid foundation. Upon this foundation, we have built a strong program across the complex that incorporates the elements of quality assurance, environmental management, conduct of operations and security, as well as safety.

The 2010 Champions Workshop gives us the opportunity to leverage ISM as we build *Pathways to New Missions*.

WORKSHOP TOPICS COVERED INCLUDE: (For more detail, see http://www.srs.gov/general/ism2010/topical_areas01.htm)

- [Employee Engagement](#)
- [The Trajectory of Health, Wellness, and Safety](#)
- [Quality Assurance: Minimizing Risks and Hazards](#)
- [Environmental Sustainability](#)
- [The Safety Component of Design](#)
- [ISM Culture in the National Laboratory Environment](#)
- [New Concepts in Feedback & Improvement](#)
- [Lessons Learned from the American Recovery and Reinvestment Act \(ARRA\) Experience](#)
- [Integration of ISM at Multi-Contractor DOE Sites](#)

We invite you to participate as a presenter at the 2010 DOE ISM Workshop. Just submit a text abstract by May 17, 2010 to:

http://www.srs.gov/general/ism2010/DOE_ISMWorkshopAbstractCallForm.htm

ADDITIONAL WORKSHOP INFORMATION:

An industrial exhibition is being planned. To register, visit:

http://www.srs.gov/general/ism2010/DOE_ISMWorkshopVendorRegistration.htm

We look forward to receiving your abstract and seeing you in Augusta.
