

# Occupational Safety and Health Subgroup

# Current Organization

The title "Occupational Medical Task Group" is displayed in a large, bold, black sans-serif font, centered on the slide.

# Occupational Medical Task Group

- Met in ABQ – April 19 – 20
- 25 individuals attended
- Deliverables from meeting
  - 3-yr Plan Recommendations to the DOE, Bonnie Richter, who will present it to Glenn
  - Form a subcommittee to address trigger points for chelation treatment
  - 10 CFR 851 Occupational Medicine concerns

A stylized globe showing the Americas, rendered in white and light blue against a dark blue background.

# 3-yr Plan

- Establish “Office of Chief Medical Officer”
- Demonstrate Benefits of “Quality OccMed Services”
- Identify issues for Aging Workforce
- Establish Medical Peer Review Process
- Electronic Medical Records
- Advocate Employee Assistance Programs
- Identify and Promote effective Ergonomic Programs

A stylized globe showing the Americas, positioned on the left side of the blue header bar.

# IH/IS Task Group

- Approx 36 Registered - 30 Attendees
- Current Initiatives
  - Tech Basis Document – Low Hazard Exposure Assessment
  - New Task – Be Program support
  - Area of investigation – HP/IH/IS integration Hazard Controls to address relative risk

A stylized globe showing the continents in white against a dark blue background, positioned in the top left corner of the slide.

# Chemical Safety and Lifecycle Management Task Group

- Joint Chemical Management Workshop
- Active tasks
  - Impacts of the new global harmonization standards
  - Benchmarking the Chemical Management Software currently in use
  - Technical Papers

A stylized globe showing the Americas, positioned in the top left corner of the slide.

# Electrical Safety Task Group

- Newly formed from Task Group
- 17 Tasks are being worked to completion

A stylized globe showing the continents in white against a dark blue background, positioned in the top left corner of the slide.

# ESTG Activities

- Summer Electrical Safety Conference
- Interpretative Guidance for 10 CFR 851 and NFPA
- Advisory board for the R&D committee
- Guidance for PPE Conflicts
- Identify Best Practices

# ESTG Activities

- Assist DOE in updating the DOE Electrical Safety Handbook
- Provide Resources for baseline IA against CRADs
- Support DOE/NNSA “Center for Excellence for Electrical Safety”

# ESTG Activities

- Maintain and augment the training modules from ESIP
- Collaborative effort to create traveling “hands on electric training”
- Recommend Qualifications for electrical safety SME’s
- Implement an FAQ page on the EFCOG web

A stylized globe showing the Americas, positioned in the top left corner of the slide header.

# ESTG Activities

- Champion full implementation of the Electrical Severity Index Tool
- Review electrical events and provide technical lessons learned
- Provide an electrical hazard analysis tool for work planners

A stylized globe showing the continents of North and South America, positioned on the left side of the blue header banner.

# On the Horizon

- Still need to evaluate NanoTech Safety as an area of support for the DOE
- Greater collaboration between the Task Groups
- Consistent application for CM Points
- Mid year / Quarterly Conference Calls
- Expanded use of the “Best Practices” webpages and “Dissusion Board”
