

JEFFREY A. MAHN

Education: BS/MS in Nuclear Engineering

Professional/Technical Skills:

Mr. Mahn has over twenty-eight years of experience in a variety of nuclear industry assignments involving skills such as general problem-solving, conducting performance-based assessments, engineering project management, process methodology development, and technical report writing. Since 1992, Mr. Mahn has been involved in risk assessment, safety oversight, independent safety review, risk assessment/management methodology development, and authorization basis preparation activities for Sandia National Laboratories. He is currently a member of Sandia's nuclear facilities support staff.
