

Established by the Office of Defense Nuclear Security in February 2007, the *Security Lessons Learned Center (LLC)* at Los Alamos National Laboratory is a platform to encourage and facilitate the sharing of lessons-learned information on security related issues.

The Security Lessons Learned Center

This center will help users from across the DOE/NNSA complex identify and implement effective solutions to various security issues.

The center provides a repository and forum for sharing innovative new tools and practices to address common security issues, improve the efficiency of the security program, and help prevent security incidents. To better develop and implement policies, procedures, and systems that will better manage security risk, the center provides security experts with access to information about real-world security successes.

For More Information:

Lessons Learned Center

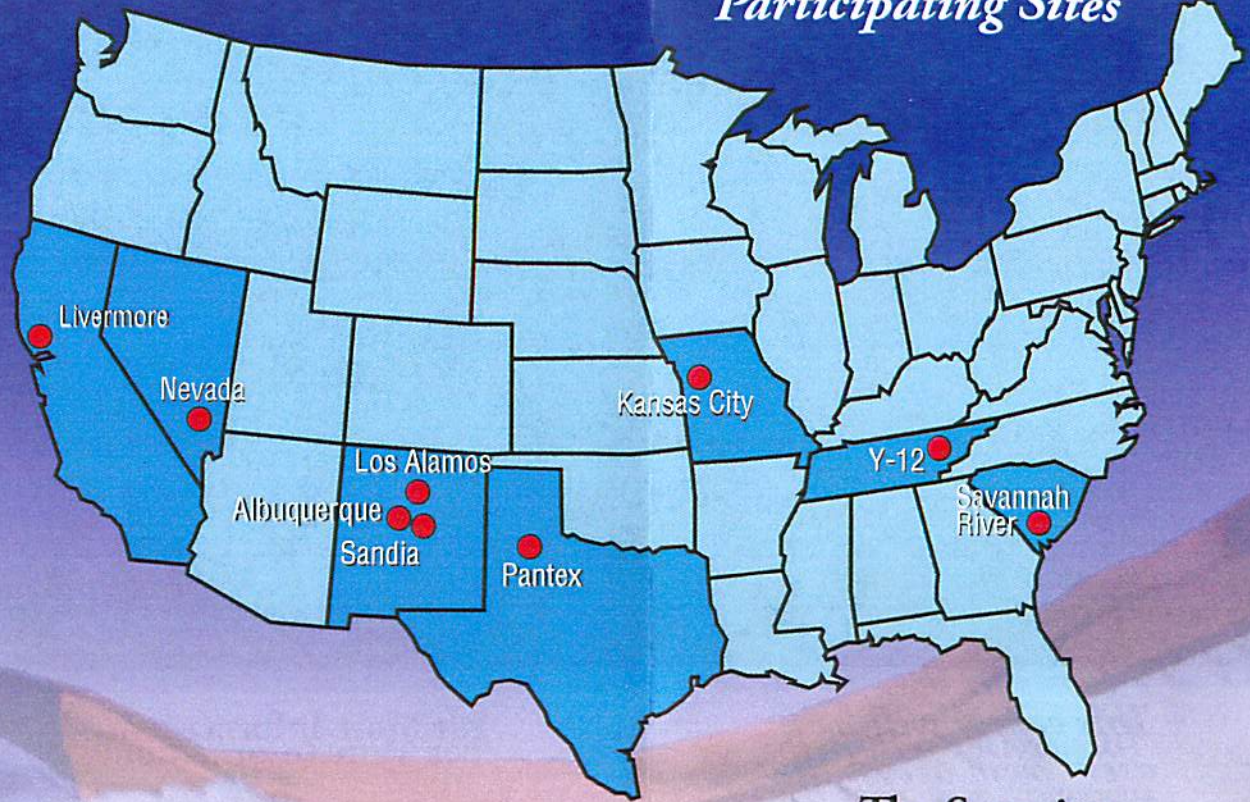

*Sharing experiences to
ensure the security
of the Nation*

LLC OBJECTIVES AND GOALS

- ★ Facilitate a vital cross flow of information
- ★ Assist in the gathering, documentation, archiving, and retrieval of information to meet critical mission needs
- ★ Provide a process which allows members of the security community to keep abreast of the latest security-related news, issues, and events across the DOE/NNSA complex
- ★ Collaborate on the development and implementation of new security practices and processes

Participating Sites

The Security Lessons Learned Center

Help Desk Available

Monday through Friday
8:00 AM to 5:00 PM
Mountain Standard Time

505-665-0196
sec-llc@lanl.gov
